If I were a mayor I would want to make people happy. So one thing I would do is make a track for running and biking. This is a good idea because there is no good place to do this if people are on the sidewalk and people do not have enough time to get out of the way. And for bikes they bike on the road might make cars get held up! The track would be a goal and have two lanes for running and biking. It would be made at Parkland Park. It would be made by having lots of fund raisers and selling things. This would be a good idea because crazy drivers get run over by cars. Put a stop to this please.
