I shall not remain insignificant. I shall work in the world for mankind! And now I know that first and foremost I shall require courage and cheerfulness. (Anne Frank)

Well this month, June, has been a busy month with a lot going on. One thing that this time of the year is famous for is graduations. I know several of my nieces and nephews have graduated from various stages of schooling during the last few weeks and it has kept me busy sending cards and visiting family. I happened to be reading about Anne Frank (see The Diary of Anne Frank , London Pan, 1954) and thought that rarely has anyone so well defined the virtues required in our age to be a successful human being, courage and cheerfulness, we don't always link these two words together but, in many ways they must go hand in hand in order to make a difference. It is easy to get discouraged, to grumble about all the "poor cards" life has dealt us but until we develop this attitude so well put by a fourteen year old Jewish girl, on the brink of oblivion, we'll remain "stuck in the mud". So my message this month to all the graduates, is to develop an attitude of courage and cheerfulness, and set out to "help mankind", be significant. Each of you is unique with your own special gifts. Search them out and put them to good use! This is not just good advice for the graduates, but for us all.

I promised to keep it short this month, I just want to close with a reminder that we have a lot to be cheerful about here in Taneytown. Not only do we live in the best small town in Maryland, we have fun things to do every month for the rest of the year. I write this on the eve of our first Wine & Art festival. I am looking forward to a great Saturday, July. (all these events occur on the third Saturday of the month) we will have "The Buffet (as in Jimmy) BBQ" where all the local "Parrotheads" will gather to celebrate the fact that It's (really) Five o'clock Somewhere. Don't forget Family Movie Nights in the Park. Visit the Farmers Market on Saturday mornings and have a safe Independence Day! (Details for these events and those following may be found on the City's website (www.taneytown.org), or by calling the City Office (410-751-1100).

The museum currently features the exhibit “On the Way to Gettysburg”.

Dale Gallon is a native of Southern California and began his interest in art and military history at a young age. He provided illustration for McDonnell Douglas, Mattel and taught art at University of California Long Beach.

Mr. Gallon released his first limited edition Civil War print in 1980 while still living on the West Coast. His love of the Battle of Gettysburg drew him, his wife Anne and their three sons to live in Gettysburg in 1984. He remarked after moving to Gettysburg, “I happen to live within a mile or two of where General Robert E. Lee led the Army of Northern Virginia into the pivotal battle of the war. The battlefield is my office. I don’t need much more inspiration.”

His hometown newspaper, The Gettysburg Times said, “Dale Gallon continues to provide collectors of limited edition prints with the reality of the Civil War that is unmatched by other artists.”

“He has works displayed at the U.S. Army War College in Carlisle, Pa, the Pentagon, Command and General Staff College in Leavenworth, KS, Army Engineer Museum at Ft. Leonard Wood, MO, VMI, Norwich University of Mississippi, Industrial College of the Armed Forces at Ft. McNair, Washington, D.C., Minnesota State Capitol, Guilford Battleground in Greensboro, NC, and numerous private collections.”

There comes a moment in everyone’s life where we contemplate “what if” I had taken this path, or made this decision over another, or simply wondered what our life would have been like if we had pursued this dream or another vision. I am no different than any of you. Four years ago I decided to act on this burning desire to create a superior destination vineyard and winery operation that all age groups could experience and enjoy generation after generation. After lining out 30+ acres of vineyard crops, a drip irrigation and trellis system, and formulate an effective canopy management program for optimal grape production, Detour Winery was well on its way to realizing our vision to create unique and exciting gourmet blends of vinifera, French and American Hybrids and create exceptional organic fruit and desert wines that explodes with flavor and aroma.

In six short months of opening, we are delighted our wines have won over 25 medals ranging from double gold, gold, silver and bronze from both international and state competitions! Thrilled with the accolades to date, I cannot forget, however, the continued hard work, long hours and personal sacrifice required every day to launch a successful winery business in a recession economy. It took three years alone (while the vineyard was maturing) to successfully complete the production facility and tasting lounge thru local county agencies. Unforeseen obstacles continuously delayed projected launch dates. Delays in overseas equipment created additional challenges in wine processing. There were challenges of timing harvests to tank space for primary fermentation that had to be overcome as a start up operation.

We were extremely fortunate to have the support of key vendors nationally to work thru difficult periods and provide valuable insight and encouragement from fermentation thru bottling. No successful business can function without incredible sacrifice and hard work of dedicated employees and family members who take a personal interest in the success of Detour Winery. I salute them all with great admiration and humility!

When I reflect on the time the first grape liner was planted to the majesty of a thriving vineyard 4 years later producing thousands of gallons of premium wine; the absolute thrill that comes when you know you have captured the very essence of a varietal.....when you can smell and taste the wine that perfectly matched the aroma and fresh juice squeezed from a grape cluster in the vineyard; when you know you completed a harvest before migratory birds descended on the vineyard with the intent to “eat away your investment”; or the sleepless nights wondering if the yeast used was the best choice or the finish blending will be the perfect formula that all wine enthusiasts will love to experience......well, then, I know I have achieved something special and when guests arrive to Detour Winery they will truly be able to discover the peace and tranquility of the vineyard and estate.....Savour the unique aromas and flavors of all our wines......and have the opportunity to Reflect on their personal experience here and perhaps sip a glass of Alpine Frost, Meadow Breeze or Crimson Glory and contemplate their next big move in life or finalize their plans to pursue their own dreams and achieve them!

This is the legacy of Detour Winery. A truly special place where great wines are born, dreams are made and lives are changed forever.

As for me, I can’t wait for the next harvest to continue blending and creating new and exciting wines to offer our guests. On behalf of the entire Detour Family, we look forward to serving you and hope to see you year after year at the winery, festivals and concerts. Salute!

"PRESIDENTIALLY" FIT AT MOTHER SETON SCHOOL

Physical fitness has always been an important part of the overall development of Mother Seton School (MSS) students. This year, 43 MSS students were awarded the Presidential Physical Fitness Award and 113 students received the National Physical Fitness Award during the annual Field Day events ceremony. "I am so proud of all of the student's efforts and achievements this year," said Mrs. Danielle Kirby, Physical Education teacher. "I was particularly impressed by many students who were determined to achieve this level of fitness and their commitment to keep trying throughout the year until they finally reached their goal," continued Kirby.

The Presidential Physical Fitness Award Program was started in 1966 by President Johnson and became the President's Challenge in 1986. The Physical Fitness Test recognizes students for their level of physical fitness in five events: curl-ups or partial curl-ups, shuttle run, endurance run/walk, pull-ups or right angle push ups, and V-sit or sit and reach. The Work Opportunity Tax Credit (WOTC): An Employer-Friendly Benefit for Hiring Veterans Meet in Need of Employment

On November 21, 2011, President Obama signed into law the Hire Heroes Act of 2011, Section 361 of the Act, the “Hiring Heroes and Wounded Warriors Work Opportunity Tax Credit,” amends and expands the tax credit to include WOTC’s Veteran target group. The changes and new provisions in this Act apply to individuals who begin to work for an employer for the first time effective, November 21, 2011 and beyond January 1, 2012.

The Hire Heroes Act of 2011 includes the following provisions:

- Extends the current target group for Veterans receiving Supplemental Nutrition Assistance Program (SNAP) benefits with the same qualified wages cap ($6,000) and maximum tax credit ($2,400).

- Extends the current target group for Veterans with a service-connected disability with the same qualified wages cap ($6,000) and maximum tax credit ($2,400).

- Extends the current target group for Veterans with a service-connected disability unemployed for at least six months with the qualified wages cap increased to $24,000 and the maximum tax credit increased to $9,600.

- Establishes a new target group for unemployed Veterans, similar to the Recovery Act of 2009 unemployed Veteran group that ended on December 31, 2010.

- Veterans unemployed for at least 6 weeks with a qualified wages cap of $6,000 and maximum tax credit of $3,600.

- Veterans unemployed for at least 6 months with qualified wages cap of $14,000 and maximum tax credit of $5,400.

- States outline agencies will satisfy veterans as meeting the required periods of unemployment based on receipt of unemployment insurance compensation.

Note: The above cited sections on the hiring tax benefit that was part of the Recovery Act unemployment veteran group was reinserted.

Qualified “tax-exempt” (ie, 501(c)(3)) organizations can participate by hiring qualified veterans and are now eligible to claim the WOTC.

- These provisions became effective the day after the President signed the Hire Heroes Act into law, November 22, 2011. Through December 31, 2012.

- The Hire Heroes Act places an “excess” cap of $9,000 for the other (non-veteran) WOTC target groups, which currently expires on December 31, 2011.

1 For Veteran targeting groups, WOTC is based on qualified wages and is the employee’s first year of employment. It does not include any supplemental tax credit for those employed at least 120 months between 400 hours, and 44% for those employed 120 hours or less.

SUMMER SUN SAFETY

While a suntan is considered a symbol of good health and attractive looks, in reality too much sun can be very damaging causing dry skin, wrinkles and even skin cancer.

Following a few simple steps to protect your skin while allowing you to safely enjoy the outdoors!

• Avoid midday exposure. UVB rays, the most damaging rays, are strongest between the hours of 10am and 4pm.
• Cover up! Hats and light clothing are a great source of protection from the sun. 90% of skin cancers occur on parts of the body which are normally exposed to the sun like the nose.
• Wear sunglasses that block UV rays to give your eyes the protection they need. UV rays may contribute to the development of cataracts.
• Apply sufficient amounts of sunscreen and rub in well. Apply at least 30 minutes before exposure. Reapply often - at least 2 hours and after swimming or excessive sweating.
• The sun does not have to feel hot to cause skin damage. You can get a sunburn on a cloudy day and sun damage can occur all year long. Use sunscreen year round.
• Our bodies produce melanin which acts as a natural sunscreen. The fairer your natural skin color, the less melanin your skin produces to naturally protect it. If you are fairer skinned use a higher SPF sunscreen and apply more often during sun exposure.
• SPF stands for Sun Protection Factor. The higher the SPF the greater the degree of protection from the burning effects of the sun.
